

The 11<sup>th</sup> edition of the **International Conference on Internet Technologies & Society** was held virtually from 15 to 17 December 2021, due to the COVID-19 pandemic.

This conference was organized by the International Association for Development of the Information Society (IADIS). It had the purpose to address the main issues of concern within WWW/Internet as well as to assess the influence of Internet in the Information Society. The main areas of interest within this event were: Internet Technologies, Information Management, e-Society and Digital Divide, e-Business / e-Commerce, e-Learning, New Media and e-Society, Digital Services in e-Society, e-Government / e-Governance and e-Health.

This edition was published jointly with the International Conferences on: Sustainability, Technology and Education (STE 2021) and Applied Management Advances in the 21st Century (AMA21 2021). These events received 137 submissions from more than 24 countries. Each submission was reviewed in a double-blind review process by an average of four independent reviewers to ensure quality and maintain high standards. Out of the papers submitted, 23 got blind referee ratings that published them as Full and Regular papers, which meant that the acceptance rate was 17%. Some other submissions were published as Short and Concise papers, Reflection papers, and Posters/Demonstrations.

Extended versions of the best papers were selected to be published in:

- ❖ the IADIS International Journal on Computer Science and Information Systems (ISSN: 1646-3692)

- ❖ the IADIS International Journal on WWW/Internet (IJWI). ISSN: 1645-7641

In addition to the papers' and posters' presentations, the conference also included one keynote presentation by Dr. Anthony Brooks (Associate Professor and senior researcher, Aalborg University, Denmark).

#### Keynote Presentation:

**“(WORKING TOWARDS) PROBABLY THE BEST (RE)HABILITATION COMPLEX IN THE WORLD” (REFLECTING APPLIED AI + ICT, HEALTH 5.0 AND DIGITAL WELLNESS)”**

by Dr. Anthony Brooks, Associate Professor and senior researcher, Aalborg University, Denmark

Overall the Conference offered an opportunity to all their participants to discuss with success the most significant aspects regarding the context of Internet in the Information Society. It served as a forum that gathered researchers, practitioners, students and anyone that was working or studying in the field of the Information Systems.

The ITS 2021 Conference proceedings edited by Piet Kommers, Tomayess Issa, Adriana Backx Noronha Viana, Theodora Issa and Pedro Isaías was published in hard copy (ISBN: 978-989-8704-36-8) by IADIS Press.
